

EVV Instructions

As per the Federal law: *21st Century Cures Act Public Law 114-255, Section 12006(a)(4)(B) Electronic Visit Verification system*, all Personal Assistants working under the CDPAP program are required to use Electronic Visit Verification (EVV.)

EVV is a tracking system that verifies that a patient is receiving Medicaid-funded personal care or home health services. EVV includes tracking the PA's location at the start and end of each visit.

While our consumer's direct their own schedules, it is our responsibility to verify that the Personal Assistant (PA) really was there at the designated time. The most reliable way to do this is by using an EVV system. EVV also eliminates the need for timesheets and enables the agency to easily pay all PAs for services provided.

EVV verifies on a real-time basis the occurrence of home care service visits, identifying

- A) the consumer receiving services,
- B) the location service is provided,
- C) the caregiver providing service,
- D) the date services are provided, and
- E) the time that service provision begins and ends.

This will ensure accurate claims disbursement and it will be a safeguard that consumers who are authorized to receive services get the expected care.

PA's should use one of the following options to confirm their arrival and departure when arriving and departing from their client's home:

- Consumer's Landline
- FOB Device Located in the Consumer's home
- Mobile App

If you are experiencing problems with calling in or calling out, please notify the agency immediately.

LIST OF NUMBERS FOR CLOCK IN/OUT

Priority Homecare

Toll Free #: 1-855-869-4256

Spanish: 1-866-523-1245

NOTE: Your Assignment ID is unique to you. Do not share your PIN with anyone.
